## EDUCATION

---

### Bachelors in Computer Application (BCA)

**CGPA: 8.5**

IMS, Noida

Aug. 2021 - July 2024

- Relevant Courses: Foundational Math, Digital Computer Fundamentals, Introduction to C programming, Operating systems, Data structures, OOPs using C++, DBMS, Java Programming, Web Design

## PROJECTS

---

### - Resume Generator Web Page Design

Used fundamental knowledge in HTML and CSS to design an interactive page utilized for generating Resume.

Developed a portfolio webpage with the help of HTML, CSS, and plain JavaScript.

### - Cat picture generator Web App

Developed a dynamic Cat Image Generator Web App using HTML, CSS, and a server-side programming language for backend functionality. This engaging app allows users to click the "show me cat" button, generating diverse cat pictures sourced from the internet.

## PUBLICATIONS

---

- Research paper titled Application of Artificial Intelligence in food: review**

College Journal (In proceedings)

Afia. J, Aman
